

AKSHIT PRATAP SINGH

B.Tech in Computer Science & Engineering (AI & ML)

Singhakshitpratap911@gmail.com • +91 9151963401 • [linkedin.com/in/akshitpratapsingh](https://www.linkedin.com/in/akshitpratapsingh) • github.com/singhakshitpratap911-hue

PROFILE SUMMARY

Motivated Computer Science & Engineering undergraduate specializing in Artificial Intelligence & Machine Learning. Experienced in building practical software, performing network vulnerability analysis, and architecting solutions in high-intensity hackathon environments. Skilled in C, Python, packet telemetry, and cross-functional team leadership.

TECHNICAL SKILLS

Languages & Tools: C, Python, Wireshark, Nmap, Hping3, Hydra, Linux (Kali), Windows
Domains & Specialization: Artificial Intelligence, Machine Learning, Network Security & Traffic Analysis
Core Competencies: Rapid Prototyping, Packet Inspection, Threat Simulation, Technical Pitching, Leadership

EXPERIENCE & LEADERSHIP

Internshala Student Partner (ISP 59) Aug 2026
Internshala (Scholiverse Educare Pvt. Ltd.)

- Selected as a campus ambassador to guide and motivate students toward skill development and career opportunities.
- Promoted educational initiatives, technical training campaigns, and corporate internship drives across campus communities.

HACKATHONS & TECHNICAL PROJECTS

Network Traffic Analysis Framework for Cyber Attack Detection Jun 2026 – Jul 2026
Summer Training Project | Associated with United Group of Institutions

- Architected and managed a virtualized security testing environment leveraging Kali Linux and Windows OS.
- Simulated high-risk threat vectors including Port Scanning (Nmap), DDoS/SYN Flooding (Hping3), and Brute Force exploits (Hydra).
- Evaluated raw network telemetry using deep packet inspection in Wireshark to isolate anomaly signatures and reduce false positives.

College Smart Issue Reporting System Mar 2026
U-HACK 4.0: 24-Hour Innovation Hackathon | Team: CODEX CREATORS

- Collaborated in a cross-functional hackathon team to develop an automated campus issue reporting system under 24-hour sprint constraints.
- Designed system architecture and prepared technical pitch decks for competitive evaluation by an expert judging panel.

EDUCATION

Bachelor of Technology (B.Tech) – Computer Science & Engineering (AI & ML) Expected 2029
United College of Engineering and Research (UCER)

CERTIFICATIONS & TRAINING

- CS50x: Introduction to Computer Science – Harvard University
- Summer Training in Network Traffic Analysis & Cyber Attack Detection – United Group of Institutions
- Executive Certification in Artificial Intelligence – UniAthena
